

RoHS Compliant

To whom it may concern

LINBRAZE is a leading global supplier of brazing products for electrical and automotive industry.

LINBRAZE are aware that the EU Directive 2011 / 65 / EU (RoHS) is limiting the use of certain hazardous substances in electric and electronic equipment.

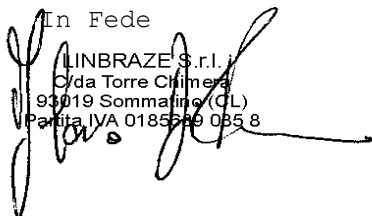

In particular the following 6 substances are listed:

1. Mercury
2. Chromium VI
3. Cadmium
4. Polybrominated biphenyl (PBB)
5. Polybrominated diphenyl ethers (PBDE)
6. Lead

The following statement regarding conformity of our products to the EU Directive 2011 / 65 / EU (RoHS) is based on our actual research and inquiries, the shares of above mentioned first 5 substances in our products are not exceeding the limits as defined in the RoHS Directive.

- LINBRAZE is systematically using "lead free" soldering metals, unless specific customer or technical requirements are asking for other, lead containing soldering metals.
- LINBRAZE is in the position, upon customer request, to propose and provide products using lead containing soldering metals.

The RoHS status of many of our products is listed on data sheets in catalogues or in our product data base
